

Extra Points on Tests:

For each test this semester, you will be given the opportunity to earn extra points towards your test. An assignment will be given to you to complete. In order to receive full credit for this assignment, all work must be shown. If no work is needed, a brief explanation or theorem should be written to show how you got your answer.

Points will be awarded based on the scale below. If you do not get each question correct on the alternate assignment, then you will not receive the full points as listed below.

- For example, let's say you scored an 85 on your original test. If you get a 100 on the alternate assignment, you would get 4 points added to your test grade. But, let's say you got 8/10 on your alternate assignment, you would only receive 80% of the points back, or about 3 points.

This assignment is optional. But if you choose to do it, make sure you do your best and you turn it in on time!
